MUHAMMAD ZEESHAN USMAN UPPAL

Flutter Developer | Android Developer

0308-8257391 | zeeshanus464@gmail.com | GitHub: github.com/ZeeshanUsman13/medixpert | Portfolio: zeeshanusman13.github.io

PROFESSIONAL SUMMARY

Flutter Developer with hands-on experience shipping cross-platform apps and integrating AI (Firebase ML) and RESTful APIs. **Primary contributor (~80%)** on a healthcare app rebuild (Java → Flutter). **Shipped 1–2 releases** on a live commercial app. Comfortable across the full cycle: architecture, state management, manual and automated testing, and debugging.

CORE SKILLS

- Mobile Development: Flutter, Android Development, Cross-platform Mobile Applications
- Programming: Dart, Java, Kotlin
- Backend & Data: Firebase, Firebase ML (AI-assisted features), MySQL, REST APIs, SOAP APIs, API Integration
- Engineering: Responsive UI Design, State Management, Debugging, Manual QA, Widget/Unit Testing (flutter_test)
- Tools & Delivery: Git (version control), Issue Tracking, App Packaging

PROJECTS

Lagon Lithium Batteries — Business Management System | *Flutter | Inventory & Sales Management*

- Solo-built a complete Flutter business management system covering inventory tracking and sales; development finished, pending deployment.

MedixPert | *Flutter | Firebase | Firebase ML | Healthcare*

- Rebuilt ~80% of a doctor–patient app solo, migrating it from legacy Java into Flutter with Firebase integration and custom loading animations.
- github.com/ZeeshanUsman13/medixpert

Spiral App · AI Tracking App · Sort Game | *Flutter | Firebase | Firebase ML*

- Spiral App: end-to-end Flutter build — architecture, state management, and UI — taken solo to a polished, ready-to-ship state.
- AI Tracking App: personal project integrating Firebase ML for AI-assisted monitoring features (pre-launch).
- Sort Game: puzzle-style Flutter game with manually tested interaction flows and gameplay logic.

Final Year Project (FYP) | *Kotlin | Java | Android — University Project*

- Developed a native Android application in Kotlin and Java as a final-year university project, implementing RESTful API integration with back-end services.

PROFESSIONAL EXPERIENCE

Flutter Developer *08/2024 – Present*

CodeSpark | Gujranwala, Pakistan | Part-time — 3 days/week, 2 hrs/day

- Integrated RESTful APIs and shipped 1–2 releases for a live Flutter app.
- Built cross-platform UI and caught regressions pre-release using manual QA plus automated widget/unit tests.
- Collaborated with UI/UX designers to translate mockups into intuitive, navigable interfaces.
- Used Git for version control across features and bug fixes.

Lecturer (Concurrent with CodeSpark) *10/2025 – 02/2026*

Govt. Islami College | Gujranwala, Pakistan

- Taught 80+ students by delivering lectures and facilitating discussions to build critical thinking skills.
- Designed assessment tools to evaluate student performance and provide constructive feedback.

Flutter Developer Intern (Remote) *07/2025 – 10/2025*

Marfa Technologies | Al Qusais, Dubai | 2 days/week, remote

- Developed application features in Flutter remotely as part of a cross-functional team, 2 days/week.
- Implemented RESTful API integrations for application data and functionality.

Android Developer Intern *12/2024 – 01/2025*

PAPTECH Pak Applied Technologies | GT Road, Gujranwala

- Developed and maintained Android applications using Kotlin and Java.
- Implemented UI designs with a focus on usability and application performance.

EDUCATION

Bachelor of Science (BS) – Information Technology *01/2025*

Govt. College Satellite Town | Gujranwala, Pakistan | CGPA: 3.36

Intermediate – FSc Pre-Engineering *01/2021*

ILM Group of Colleges, BISE | Gujranwala, Pakistan | 1002/1100

Data Analytics *12/2024*

TEVTA | Gujranwala, Pakistan
